Five-Fold Ministry: Apostle

The apostle is like the thumb. It touches all the other fingers, which means it can act like each of the other fingers as needed. When you make a fist, all the other fingers go under the thumb, which shows the authority and headship of the apostle. The apostle brings wholeness and support to the body of Christ. He or she is the first in order, and is like the writer of the movie script. Everyone else is carrying out what is written in the script.
